Prerequisite for EPI 514. May be waived if substantial SAS and STATA programming.

Biostatistics Requirement

Complete either sequence:

- BIOST 511*
- BIOST 512*
- BIOST 513*

or two courses:

- BIOST 517*
- BIOST 518*

Non-Course Requirements

Submit Human Subjects Form
Submit Thesis Proposal
Submit Thesis

Non-Course Requirements (not including supplemental requirements for the practicum)

Submit Human Subjects Approval (IRB)
Submit Thesis Final Quarter

Before registering for EPI 700 Non-Credit
Before final quarter Non-Credit
Before beginning thesis research Non-Credit
Checklist

- Plan ahead to ensure that required courses, usually offered once a year, will be completed on time to graduate. Elective scheduling may change from year to year. *Some electives courses are offered every other year.*
- See Time Schedule at [http://www.washington.edu/students/timeschd/](http://www.washington.edu/students/timeschd/) for days/times of classes, whether an add code is required, and the add code contact. Courses with “>” before the 5 digit SLN number require an add code.
- Students may register for additional electives and EPI 600 Independent Study in order to have enough credits.
- Students intending to complete a PhD in this department are advised to earn a 3.7 or higher in EPI 512-513, and prepare for the Doctoral Preliminary Examination in June. Consult with your faculty advisor regarding whether to take electives during the first year.
- To request waiver of a required course, use the appropriate form on the Epi Students Canvas site. EPI 512-513, EPI 700, and EPI 595 may not be waived. EPI 521, HSERV 510-511 and ENVH 511 are rarely waived.
- Up to 12 applicable UW Graduate Non-Matriculated (GNM) course credits graded 3.0 or above may count toward the degree. No courses completed as a regular (non-GNM) Non-Matriculated student may count toward the degree, although students will not have to retake such courses if they earned a 3.0 grade or higher.

Footnotes

1 These courses do NOT count toward a degree in Epidemiology: Any courses below the 500 level; EPI 500, EPI 511; HUBIO 530; BIOST 502-503, BIOST 508, BIOST 517-18 when taken in addition to BIOST 511-13; undergraduate research or internship; courses taken to complete a degree program at another department/university; courses for which waivers were granted; and courses unrelated to health.

2 BIOST 517-518 cover material at a faster pace than the 3-course sequence BIOST 511-513. BIOST 517-518 are recommended for students with some prior background in statistics and R, or who learn mathematic/computer concepts quickly.

3 Approved EPI Electives can be found in the Epi Course Planning Sheet on the Epi Courses webpage.
