- Every attempt is made to minimize scheduling changes from year to year, but there is no guarantee a course will be offered at the same time every year. *Some courses are offered every other year, as noted on the [Graduate Course Listings](#).*
- See [UW Time Schedule](#) for days/times of classes, whether an add code is required, and the add code contact. Courses with “>” before the 5 digit SLN number require an add code.
- Students may register for elective courses and EPI 600 Independent Study in order to have enough total credits.
- Students intending to complete a PhD in this department are advised to take the Doctoral Preliminary Examination in June after their first year.
- To request a waiver or substitution of a required course, use the Waiver/Substitution form found on the [Epi Students](#) Canvas site. Be sure to review the Waiver/Substitution Policy (also found in [Epi Students](#)) to be sure the course you plan to waive/substitute is eligible for waiver or substitution - follow the instructions for course waivers/substitutions found on the Epi Students Canvas site to request approval.
- This checklist is intended to help you plan for your courses and requirements, but ultimately it is your responsibility to ensure that all requirements for your degree are complete. Please run your [DARS degree audit in MyPlan](#) at least once per quarter to ensure that you are on track to complete all required coursework. Please also reach out at any time to epi@uw.edu to request a degree audit or check in to discuss your plans.

Footnotes

¹**These courses/credits do not count toward a degree in Epidemiology:** Any courses below the 500 level, EPI 500, EPI 511, HUBIO 530, BIOST 502-503, BIOST 508, BIOST 517-18 *when taken in addition to* BIOST 511-13, BIOST 511-13 *when taken in addition to* BIOST 517-18, courses taken to complete a degree program at another department/university, credits in courses for which waivers were granted, non-health related courses.

- *Students, with approval from their faculty advisor and the Graduate Program Director, may count non-health related, graduate level coursework taken at the UW toward their degree, if it is particularly relevant to their research/career.*
